The link for joining the conference event presented at the end of this programme

Presentation 1

Title: Innovative use and economic benefit of products containing innovative microorganisms in crop cultivation.

Speaker: professor Baiba Rivza, Latvia University of Life Sciences and Technologies

Authors: Baiba Rivza and Vivita Viksnina, Latvia University of Life Sciences and Technologies

Annotation: Climate change and the overall negative changes in the environment are a threat to the future of the world including Europe, requiring a reassessment of action plans and an economic approach to sustainable management. The agricultural sector is one of the biggest emitters of greenhouse gases (GHG) and the European Green Deal strategy: Farm to Fork creates the need to develop and introduce new innovations in crop production. Two options for crop-producing farms are currently emerging: (1) digitalisation and (2) biotechnology, including the innovative use of products containing microorganisms in crop production.

Presentation 2

Title: Students’ entrepreneurial intentions in Estonia and Lithuania

Speaker: Linas Stabingis, Vytautas Magnus University Agricultural Academy

Authors: Asta Raupelienė and Linas Stabingis, Vytautas Magnus University Agricultural Academy

Annotation: This research analyse the influence of personal attitude, control of personal behaviour and other factors on the entrepreneurial intentions of students in Estonia and Lithuania. Data analysis has been based on usage of modified Krueger’s (2009) entrepreneurial intention model. The intentions to create own business were analysed according students’ gender, field of study and level of study. Summarising results of investigation, it was made cross-country comparison of obtained results and revealed similarities and differences among situation in Estonia and Lithuania.
