of Agricultural
Science

We invite you to participate in an on-line

International Continued Scientific Conference

“Environmental sustainability in a climate change context: challenges and adaptation”

Organised by Lithuanian Society of NJF.

Participation in the conference is free of charge. The official language is English.

PROGRAMME

of the 4th section

“The Effect and Control of Environmental Pollution”

which will take place on **December 7, 2023**, from 10 to 12 a.m. Eastern European Time

Dr. Ieva Mockevičienė¹, dr. Danutė Karčiauskienė¹, dr. Gintaras Šiaudinis¹, dr. Regina Repšienė¹,
dr. Karolina Barčauskaitė², dr. Olga Anne³

¹Vėžaičiai Branch, Lithuania Research Centre for Agriculture and Forestry

²Agrobiology Laboratory, Institute of Agriculture, Lithuania Research Centre for Agriculture and Forestry

³Department of Engineering of Marine Technology and Natural Sciences Faculty of Klaipeda University

Accumulation of heavy metals in acid soil and uptake by plant species with phytoremediation potential.

Dr. Dominika Krzeminska

Norwegian Institute of Bioeconomy Research

Examples of mitigation measures in Norwegian agricultural catchments: reduce soil erosion and sediments and nutrients losses to surface water

Prof. dr. Tatjana Paulauskienė

Department of Engineering of Marine Technology and Natural Sciences Faculty of Klaipeda University

Deep Tech Innovations for Marine Oil Spills Clean-Up.

Dr. Mantas Rubežius^{1,2}, Žygimantas Kidikas^{1,2}, dr. Alfreda Kasiulienė²

¹Vytautas Magnus University

²SME Biovala

Remediation of soil polluted with petroleum hydrocarbons.
