Presentation 1

Title: Use of artificial intelligence among students (Saulaine case)

Speaker: professor Baiba Rivza, Latvia University of Life Sciences and Technologies

Authors: professor Baiba Rivza, Latvia University of Life Sciences and Technologies

doctoral student Iveta Leitlante, Latvia University of Life Sciences and Technologies

Annotation: Artificial intelligence has become an integral part of our daily lives, providing us with endless opportunities and resources. It has opened up a new horizon for both students and teachers to explore. With the help of AI, we can diversify the learning process and practical training methods. However, it is crucial to learn how to evaluate the positive and negative consequences of AI and develop critical thinking skills to use it effectively.

Keywords: Artificial intelligence (AI), learning process, positive and negative consequences, effective use.
