13:00 to 14:30 Eastern European time (12:00 to 13:30 Central European time)
The link for joining the conference event presented at the end of this programme

Presentation 1

Title: The readiness of Latvian and Lithuanian municipal administration employees for digitization

Speaker: PhD Lilita Abele, RTU Liepaja Academy

Author: PhD Lilita Abele, RTU Liepaja Academy

Annotation: In the research, the author will compare the readiness of Latvian local governments for the transition to digitalization with Lithuanian local governments; since both countries are similar at both development and management levels, the rationale for the choice is as follows:

- both countries have similar administrative and government structures, which allow parallel implementation of paperless initiatives and implementation of standard ICT solutions for communication with society;
- cooperation between Latvia and Lithuania in regional organisations, such as the Baltic Assembly and the Council of the Baltic Sea States, promotes the exchange of best practices and digital transformation strategies;
- common goals to improve and reduce the administrative burden for companies and citizens by moving to paperless management.

Keywords: digitalization, municipal administration, Latvia, Lithuania.
